PROFESSIONAL SUMMARY

Senior Frontend Developer with 4+ years of experience building scalable, responsive and high-performance web applications using React.js, Next.js, Redux Toolkit, TypeScript and modern JavaScript (ES6+). Strong focus on UI/UX, reusable component architecture, Core Web Vitals (LCP, CLS) optimization and SEO. Delivered production-level healthcare, resource-management and e-commerce interfaces, and promoted to Senior UI Team Lead within four months of joining Unicode Systems. Also experienced in React Native mobile apps and AI-powered interfaces, including real-time gesture recognition with MediaPipe. Looking for a Senior Frontend / React.js Developer role where I can build impactful products and lead UI teams.

TECHNICAL SKILLS

Frontend: React.js (ReactJS), Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design, Mobile-First Design, Cross-Browser Compatibility

State Management: Redux, Redux Toolkit

UI Libraries & Styling: Tailwind CSS, Material UI (MUI), Ant Design, Bootstrap, Shopify Polaris, shadcn/ui, WordPress Elementor

Mobile: React Native

AI-Powered UI: MediaPipe (Real-Time Hand Gesture Recognition), AI-Driven Interactive Interfaces

Performance & SEO: Performance Optimization, Core Web Vitals (LCP, CLS), SEO, Reusable Component Architecture, UI/UX Principles

Tools & Platforms: Git, GitHub, Vite, REST API Integration, Shopify, Vercel, MediaPipe

PROFESSIONAL EXPERIENCE

Senior Software Developer (Senior UI Developer) | **Unicode Systems, Prayagraj** *Oct 2023 - Present*

- Promoted to **Senior UI Team Lead** within four months of joining; mentor junior developers, support the team in critical situations and review UI work.
- Led end-to-end UI development of the **E-Care Hospital Management System** using React.js, Ant Design, Tailwind CSS and Vite, delivering the interface from scratch to production.
- Redesigned and improved the UI of the **Resource-Time Management System (RTMS)** with React.js and Material UI, improving usability and consistency across modules.
- Built reusable, scalable component libraries that speed up feature development and keep the UI consistent across projects.
- Optimized application performance and load time, focusing on Core Web Vitals (LCP, CLS) and responsive behaviour across devices.
- Developed **Ecare Lite and Clinic** mobile applications using React Native.
- Developed and launched client websites and web applications, including unicodesystems.in (USPL), narainengineers.in (government project) and helixerp.in (Helix ERP), and continuously contribute new features across projects.

Senior Software Developer (Frontend) | **CEDCOSS Technologies Pvt. Ltd.** *Jul 2022 - Aug 2023*

- Designed and developed responsive web interfaces and mobile apps for e-commerce products using React.js, JavaScript and CSS.
- Worked on the **CedCommerce eBay Integration** and other marketplace integrations, building seller-facing screens connected to REST APIs.
- Applied UX principles to improve usability and user satisfaction, and delivered consistent designs across desktop, tablet and mobile.
- Collaborated with backend, QA and design teams to deliver features on schedule.

UI Developer | **Zworthkey Technologies Pvt. Ltd.** *Jul 2021 - Aug 2022*

- Revamped dashboards, templates and account pages to deliver a smoother user experience.
- Implemented Redux-based state management for tab and code-block functionality, making the UI faster and easier to maintain.
- Integrated a React carousel library to deliver smoother, more engaging visuals.
- Designed dynamic e-commerce store layouts using Shopify and WordPress Elementor.

Full Stack Developer Intern | **Arudan Technology Pvt. Ltd.** *2021*

- Worked on full stack web development tasks and gained hands-on experience with front-end and back-end workflows.

KEY PROJECTS

E-Care HIIMS (Hospital Management System) | *React.js, Ant Design, Tailwind CSS, Vite* – Complete UI for a hospital management platform, built from scratch to production with reusable components.

Resource-Time Management System (RTMS) | *React.js, Material UI* – UI redesign of an internal resource and time tracking platform for better usability and consistency.

Other Corporate Projects: Career Counseling Management System (CCMS), Candidate Evaluation System (CES), CedCommerce eBay Integration

Personal Projects

- **AI Vital Stream (Touchless Interaction System):** Built with React 19, TypeScript, Vite, Tailwind CSS, shadcn/ui and Motion. Uses MediaPipe for real-time hand gesture recognition to control the UI without touch. dcruz-ai-vital-stream.vercel.app
- **Portfolio App:** dcruz-portfolio.vercel.app
- **Food Shop App:** baccha-chaat-corner.vercel.app
- **Education ERP:** dcruz-education-erp.vercel.app
- **Lamp Dashboard:** lamp-dashboard-gray.vercel.app

EDUCATION

Bachelor of Computer Applications (BCA) | Mahatma Gandhi Kashi Vidyapeeth *2018 - 2021*
